 - **Deployment:** Vercel Serverless ready.
-

3. Deployment Instructions

Prerequisites

1. **GitHub Repository:** Push the clean code to a new repository.
2. **Vercel Account:** For hosting the frontend and serverless API.

3. **Neon PostgreSQL**: A free-tier project for the database.
4. **PayPal Developer Account**: For live Client ID and Secret.

Environment Variables

Set the following in Vercel/GitHub:

- `DATABASE_URL` : Your Neon PostgreSQL connection string.
- `JWT_SECRET` : A secure random string for session signing.
- `PAYPAL_CLIENT_ID` : Your PayPal Live Client ID.
- `PAYPAL_SECRET` : Your PayPal Live Secret.

Build Settings on Vercel

- **Build Command**: `pnpm run build`
- **Output Directory**: `dist/public`
- **Install Command**: `pnpm install`

4. Admin Setup

To promote a user to admin:

1. Sign up on the platform with your email.
2. Run the following SQL in your Neon Console:

```
UPDATE users SET role = 'admin' WHERE email = 'your-email@example.com'
```

3. Access the admin panel at `/admin`.

5. Marketing Assets

Premium posters (1:1, 16:9, 9:16) are provided in the `marketing/` folder for use on Instagram, LinkedIn, and Facebook.

6. Business Value

GloryPrep is positioned for sale in the 1.5k–2k range on marketplaces like Acquire.com or Flippa. Its standalone nature and premium design make it a high-value asset for EdTech entrepreneurs.
